Welcome!

Thank you for your joining the Olympic Peninsula HomeConnection program. Enclosed you will find registration forms and program related forms.

Also enclosed is the Statement of Understanding, a state required form describing the differences between home-based instruction and public school alternative learning experiences. The form allows you to choose enrollment options. Option A is for full-time home-based instruction so does not apply if enrolling in OPHC. Option B is for full time enrollment in the program. Option C is for less than full time enrollment.

When we receive your child's completed registration forms, an account will be opened for your family on [www.wingsnw.com](http://www.wingsnw.com), the website where instruction, attendance, workshops, events and information is posted. You will be emailed your username and password for access to your homepage on this website, as well as the name of your advisor.

Once you have access to WINGS, you will post a Written Student Learning Plan for your child, setting out the goals you have for your child's education for the year. You may email your advisor any time for help.

The initial startup is the hardest part of our program, you will have a lot of questions, but, it is well worth the effort! Please do not hesitate to contact your advisor. Advisors are here to make this a good experience for you and your children!

Paula Burgner

OPHC Administrative Secretary
